FACULTY POSITIONS IN CLIMATE CHANGE AT THE UNIVERSITY OF WASHINGTON

The Program on Climate Change (PCC) at the University of Washington is seeking applications for two tenure-track faculty positions. We anticipate hiring at the Assistant Professor rank. In exceptional circumstances, appointment at the Associate or Full Professor level may be considered for candidates who offer extraordinary opportunities to further the University’s commitments to mentoring underrepresented students in the sciences. The positions may be in the School of Oceanography, the Department of Atmospheric Science or the Department of Earth and Space Science. The home department will be decided based on the background and interests of the applicant and the needs of the departments. Persons with expertise in the following areas are encouraged to apply:

- Terrestrial Biogeochemistry and Global Ecosystems (emphasis on observations)
- Paleoceanography (emphasis on observations)
- Coupled Ocean-Atmosphere Climate Modeling (focused on climate variability on decadal to centennial time scales, paleoclimate on decadal to millennial time scales and/or the global carbon cycle)

Description of the UW Program on Climate Change can be found at depts.washington.edu/uwpcc.

The Program seeks individuals with a demonstrated record of excellence who will interact with and complement existing faculty. The successful candidates will be expected to be actively involved in the PCC, teach at both the undergraduate and graduate levels, advise graduate students and conduct independent and collaborative externally-funded research. Applicants should send both printed and electronic copies of their curriculum vitae, including a list of publications, a statement of research and teaching interests, recent reprints, and contact information for four references to:

Chair, Faculty Search Committee  
UW Program on Climate Change  
Box 355351, University of Washington,  
Seattle, WA  98195-5351

Electronic materials to: uwpcc@u.washington.edu

Priority will be given to applications received by 1 February 2004. A PhD degree is required by the date of the appointment.

The University of Washington is an affirmative action, equal opportunity employer. The University is building a culturally diverse faculty and strongly encourages applications from women, minorities, individuals with disability and Vietnam-era veterans and other covered veterans.
